

Kids love animals, learning and exploring new things. We bring them all together in the Zoo In YOU series. The Zoo In YOU is an educational program that highlights emotional leadership and development. Our program is designed to help your children discover and explore their Range of Emotions. The concepts and lessons each of our characters represent will delight your kids in a constructive and imaginative way. Become great friends with your animal teachers and know how to return to Recovery Park again and again...

THE ZOO IN YOU
